Good to know

 The Apple warranty has expired.

- ☒ It is not a display, replaced or loaner phone.

At the meeting, before you pay

- 1 Dial ***#06#**. The IMEI shown must end in **00032**.
- 2 Insert your SIM first. If there is no signal, the phone is locked to another carrier: negotiate the price or walk away.
- 3 Open **Settings**. Nobody else's name should appear at the top (the account must be signed out).
- 4 Ask for a reset: **Settings** → **General** → **Transfer or Reset** → **Erase All Content**. It must start up without asking for someone else's password.
- 5 Insert your SIM and make a call.

The phone can still be locked after you buy it

This report shows the status at 30.10.2026, 16:20. After the sale, the previous owner can still report it stolen or lock it remotely (via iCloud, Knox or Chimera), even if it is clean today. To protect yourself:

- Ask for the original invoice or write a short sales contract with the phone's IMEI and the seller's identity details.
- Pay by bank transfer, not cash, so there is a record.
- Keep your messages with the seller and the listing.

If the phone gets locked later, this evidence lets you ask for your money back or file a police report.
