What to do now

- 1

Ask the seller for proof that the company or school released the phone from their system.
- 2

Once released, check the IMEI again before paying.
- 3

Otherwise walk away: it can be locked or wiped remotely at any time.

The phone can still be locked after you buy it

This report shows the status at 30.10.2026, 16:20. After the sale, the previous owner can still report it stolen or lock it remotely (via iCloud, Knox or Chimera), even if it is clean today. To protect yourself:

- Ask for the original invoice or write a short sales contract with the phone's IMEI and the seller's identity details.
- Pay by bank transfer, not cash, so there is a record.
- Keep your messages with the seller and the listing.

If the phone gets locked later, this evidence lets you ask for your money back or file a police report.
