

VerificaIMEI.ro — IMEI check report

IMEI 350000232000022 · Ref EXEMPLU_ · 30.10.2026, 16:20

Be careful before buying

The phone is locked to the VOD - Vodafone UK network. With another carrier's SIM it will have no signal until it is unlocked.

Galaxy S23

Bought new in March 2023, in Romania (~4 years ago)

The 4 things that matter

NO

Is it reported stolen or lost?

It is not in the international database of stolen phones.

NO

Is it locked by Samsung or a lender?

No. Knox Guard (used on phones bought in instalments) is off.

NO

Does it work with any SIM card?

No. It is locked to VOD - Vodafone UK. It only works with that carrier's SIM cards until it is unlocked.

!

Is it under warranty?

No. The Samsung warranty expired on 2 April 2025. You can use this to negotiate.

Good to know

It has two IMEIs (dual SIM). It is normal for the second one to be different.

At the meeting, before you pay

- 1

Dial ***#06#**. The IMEI shown must end in **00022**.
- 2

Insert your SIM first. If there is no signal, the phone is locked to another carrier: negotiate the price or walk away.
- 3

In **Settings** → **Accounts** there must be no Samsung or Google account left.
- 4

Ask for a factory reset in front of you. It must start up without asking for someone else's password.
- 5

Insert your SIM and make a call.

The phone can still be locked after you buy it

This report shows the status at 30.10.2026, 16:20. After the sale, the previous owner can still report it stolen or lock it remotely (via iCloud, Knox or Chimera), even if it is clean today. To protect yourself:

- Ask for the original invoice or write a short sales contract with the phone's IMEI and the seller's identity details.
- Pay by bank transfer, not cash, so there is a record.
- Keep your messages with the seller and the listing.

If the phone gets locked later, this evidence lets you ask for your money back or file a police report.
