

VerificaMEI.ro — IMEI check report

IMEI 350000232000030 · Ref EXEMPLU_ · 30.10.2026, 16:20

Do not buy this phone

The phone is under Knox Guard. It can be locked remotely at any time, usually for unpaid instalments or because it belongs to a company.

Galaxy S23

Bought new in March 2023, in Romania (~4 years ago)

The 4 things that matter

NO

Is it reported stolen or lost?

It is not in the international database of stolen phones.

YES

Is it locked by Samsung or a lender?

Yes. Knox Guard is on: the phone can be locked remotely (usually unpaid instalments or a company phone).

YES

Does it work with any SIM card?

Yes. It is unlocked and works with any carrier.

Is it under warranty?

No. The Samsung warranty expired on 2 April 2025. You can use this to negotiate.

Good to know

It has two IMEIs (dual SIM). It is normal for the second one to be different.

What to do now

- 1

Ask the seller whether the phone was bought in instalments or belongs to a company.
- 2

Buy only after the instalments are paid or the company removes it from Knox Guard, then check the IMEI again.
- 3

Do not accept promises like “it will unlock by itself”.

The phone can still be locked after you buy it

This report shows the status at 30.10.2026, 16:20. After the sale, the previous owner can still report it stolen or lock it remotely (via iCloud, Knox or Chimera), even if it is clean today. To protect yourself:

- Ask for the original invoice or write a short sales contract with the phone's IMEI and the seller's identity details.
- Pay by bank transfer, not cash, so there is a record.
- Keep your messages with the seller and the listing.

If the phone gets locked later, this evidence lets you ask for your money back or file a police report.
